Dear Sir,

Sh. Anand Ashutosh
 11/3 O.S.

Chand. J
 11/3
 DD(FI)/CPIO

Your organization is doing collection, compilation, storage and dissemination of spatial database on forest resources.

You have prepared thematic maps on interpretation of areal photographs on 1:250000 and 1:50,000 scale. The areal photographs are interpreted using stereoscope. Since there is considerable overlap in the successive photographs, and therefore stereoscope viewing produces three dimensional images with the help of which various land use classes are identified and delineated. FSI library holds around 50,000 such thematic maps.

For earlier years you have used data of Remote Sensing Satellite LANDSAT till 1995. Latter on you have used data of Indian Remote Satellite (IRS) LISS III sensor.

You held visual interpretation of satellite imagery in hard copy and also digital interpretation of satellite data in soft copy. You use digital processing software (which ? ERDAS imagine) radiometric and contrast corrections are applied for removing radiometric defects and for improving visual impact of the False Colour Composites (FCC). Geometric rectification of the data is carried out with the help of scanned SOI toposheets.

I am approaching you for the areal photographs and satellite data used for the years 1985 to 1998 by you for the city Nagpur, Maharashtra, India can be made available to me. Further the facility of stereoscope viewing is available for citizens / students.

The Areal Photographs you used are acquired from Defece Department. Though it is important for security and other purposes not to disclose it. But You can share me only that portion of areal photographs for nagpur urban city which can be shared. You a researcher well aware the basic data how it is important for any athantic research. I am confident you will share me the data for Nagpur urban city of Maharashtra. ITS MY HUMBLE REQUEST PLEASE SHARE THE DATA OF YOUR RESEARCH .(For years 1985-1998)which is mentioned in your report the extract copy of which is enclosed herewith for ready reference.

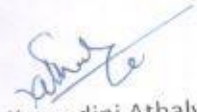

Hard copy at sr.no iii ,iv, and DIGITAL DATA AT SR.NO v , vi, vii OF STATEMENT ATTACHED HEREWITH OF YOUR 'State of Forest Report'.
