JANUARY-MARCH 2023

## Five Days training programme on Soil, Water Conservation and Management

3 January 2023, Dehradun. ICAR-Indian Institute of Soil and Water Conservation organized a 5 days programme during 26-30 December 2022, on *Soil, Water Conservation and Management* for field officers of Divisional Soil Conservation officers' Training Institute SAS Nagar Mohali, Punjab. The programme was focused on Conservation and Management of Natural Recourses, comprised with various demonstration cum practicals on aspects of resource conservation watershed management and theory classes on recent advances of mechanical measures and biological measures for resource conservation, water harvesting, recycling and other important components of watershed management. In this training programme, 14 surveyors and 2 Agriculture Sub-Inspectors participated from different divisions of Punjab.

Dr M Madhu, Director, ICAR-IISWC, Dehradun stressed upon survey work related to exiting practices of Soil and Water Conservation in different part of the states and development entrepreneurship among the farmers through different user groups. He requested the trainees to connect with farmers at village level and create awareness on scientific management of natural resources to achieve sustainability and profitability.
